

Who Is InterDev?

InterDev has been providing business technology solutions for over 29 years through the Pre-PC, Networked PC, and Internet eras. InterDev now stands ready to lead its clients through the Cloud Computing era where you use computing resources just as you would utilities, paying for only what you use. Cloud Computing provides workforce efficiency, energy and carbon reduction and a cost saving strategy. InterDev provides a wide variety of services focused on bottom-line solutions designed to improve ROI. Other services include Managed IT, helpdesk, and disk-based backup and disaster recovery. InterDev has the insight, knowledge and experience to drive long-term success and the vision to direct the growing need of integration services. Its management brings a strong, proven track record of building and delivering cost-effective solutions. For more information, visit the company's website at www.interdev.com.

Who is Craig McCaw:?

Clear was founded by Craig McCaw. He sold his first company, Cable Vision for \$770M. He then built Cellular One and sold it to AT&T for \$11.5B. Next, he built and sold Nextel to Sprint for \$6B. Craig then started Clearwire and now he, along with his partners listed above (Sprint owns 51% of Clear) have created Clear. Your Google search on Craig McCaw will prove that he is the undisputed "wizard of wireless" and is number 365 on the Forbes 500 world's richest people.

Who is Clear?

Clear is a subsidiary of Clearwire Corporation (NASDAQ:CLWR). Clearwire www.clearwire.com started in 2003 to build a wireless internet company, ie, the internet "aircard". Clear is the subsidiary, as noted above, that is delivering the world's only 4G mobile internet service. Here is an article from the Wall Street Journal <http://online.wsj.com/article/PR-CO-20090901-905363.html?mod=wsjcrmain> This truly is mainstream, not a start-up, and very real!! Clear is scheduled to launch this service in Charlotte, Raleigh and other SE Cities very soon.

What is Clear?

www.clear.com Clear is the first 4G network in the world that offers customers Internet for about half what they are paying now, and with mobile speeds that are 2 – 10 times faster. For about \$60 a month, you can get 4G wireless internet at home PLUS a 4G mobile aircard, or two 4G mobile aircards (most people pay that much for one aircard). For about \$80 a month you can get everything from the \$60 package plus your home phone line including unlimited long distance in the North America. Important to note, this service does not have a monthly download cap, where most aircards have a 5gig cap and some home systems have 10gig, 20gig or 40gig caps. A movie alone can be up to 2gig.

At home, on a wired cable, people might have speeds of 2Mbps – 4Mbps or higher, but most

aircard speeds are generally only 500Kbps up to 1.2Mbps. Clear offers speeds consistently over 4Mbps at home and wireless (no more cable to install or decide where to place your computer and TV) with burst speed of over 10Mbps and up to 16Mbps. This has never been done before. Clear 4G is "cutting the cord" and offering mobile speeds fast enough to watch TV on your laptop. Clear 4G is currently in Atlanta, Las Vegas and Portland (Intel's home), with Chicago, Philadelphia, and Dallas opening this month and in 80 other cities, representing 120M people by the end of 2010. Their National Media and Advertising campaigns have already been launched and they also sell this service from store fronts and kiosks in the Mall. Our opportunity is for direct to consumer sales and Clear provides all the 24/7 Customer Service and Technical Support, we just show the product. So what is our opportunity?

What is the future and what is our opportunity?

You are being invited to partner with InterDev to build a Customer Acquisition Team and to recruit, train and build your own international sales and marketing team, all promoting the first and only 4G network in the world. Clear is providing the national media exposure, which makes us a very credible product with credible salespeople. People can buy directly from Clear or at a store, but we "take it to the customer", and are their only mobile sales force, just like mobile internet. Our first opportunity is to serve the 120M potential customers in 80 US cities. International expansion will begin (our list of partners are all multi-national, multi-billion dollar companies) soon. There are 80 companies and over 400 products currently being developed that will utilize 4G. Portable TV's, cell phones that run on your internet, a device for the office to run 5 phone numbers all over one internet line (5 numbers for around \$50 a month, every business will want to talk with you), the internet chip will be imbedded in the PC to turn your PC into a phone, internet and TV (these 3 technologies are merging into one device/service), wireless security devices, etc. Your ability to grow your customer base is endless since we can continue offering our customers all these products by visiting them, instead of them going to a store. We can demonstrate all the features and benefits right in their home or office, and our income has the potential to continue to grow for years and years. Everyone wants the latest technology!

How do I get started?

There is absolutely no cost to register as a Re-Seller with InterDev, you only need to be a Clear customer. We are actively working to simplify adding team members from outside the US and while this portion of the program has not been completely worked out, we should have that model soon. In the interim, anyone you recruit outside the US, we will just treat it as a pre-launch and manually keep track of it. Think of the all people that you know and all the people that they know, etc. We can invite all of them to join us. We will all have our own 4G equipment and can demonstrate its lightning speed any time you are in a Clear service area. Imagine, since we are mobile sales force, going to Las Vegas or Dallas to work this winter? Again, remember, this is NOT MLM. There is no placement, no left leg/right leg, monthly qualifications, volume splits, etc. You have the opportunity to sell the service and build your own team much like any organization. Since there is no salary to start and no cap on your

salary, your potential income is only determined by the amount of time and energy you put into selling the service and building your team of like-minded professionals. We are already hearing from team members that this is the easiest sale they have ever made and many of those have never even been involved in any kind of direct sales. Simply demonstrate the 4G service for a few minutes and the rest is history.

You are cordially invited to join the team. The service just launched in Atlanta, Las Vegas and Portland on July 1, 2009. The compensation structure is designed to give you significant up front commissions on new customer sales (\$160-\$360 for a single \$60 monthly, 2 year contract), with great bonuses and overrides that encourages you to recruit, train and build your own domestic and international sales team of dedicated, motivated professionals. In addition to support from Clear (Customer Service 24/7, Technical Support and powerful National Media Awareness), InterDev has training systems and procedures in place that we are all encouraged to participate in as well as our own teams that have regularly scheduled calls, conference calls, webinars, multiple training meetings each week, fly-ins, incentives, etc. The timing is perfect as this IS the beginning. Don't let your friends, family and associates tell you about this great opportunity months from now, you tell them and start building your own team and earning your way to financial freedom!!

Anything Else I Need?

All you need to get started is signing up through the InterDev sales portal for a Clear Account (Pick 2 Unlimited/Lease Option). There are no other out-of-pocket expenses required. However, we do recommend that you own a personal computer (notebook or netbook) and purchase a Clear Sales Kit.

What is the Clear Sales Kit?

The Clear Sales Kit consists of the following items:

Sales Manual	\$12.50
Polo Shirt (S/M/L/XL)	\$25.00
Business Cards (1,000)	\$45.00

What other merchandising materials are available?

We have designed templates to assist you in your sales efforts such as sales flyers. These flyers can be printed on 8 ½ x 11 lime green stock at any Office Depot location. We suggest that it be reduced to 8 ½ x 5 ½ and printed in landscape format. Then it can be cut in two to produce double the number of flyers. The Word template used to construct this flyer is available on our Sales Portal under Merchandising Materials.

What types of training are available?

There are a variety of training modules available for more advanced training including:

- AR Training (Introduction to Clear)
- Clear Referral Program
- Clear Voice Training
- CW Queues
- WiMAX Order Entry
- WiMAX Sales Process

In addition, training is available on Tuesday (Advanced) and Thursday (Regular) mornings in the Clear Corporate Offices located near Northside Hospital.
