

## **Nathan Holder Attains Project Management Professional**

**ALPHARETTA, GA – August 21, 2015** – InterDev, an Atlanta-area provider of information technology and security services, announced today that Project Manager Nathan Holder has earned his Project Management Professional (PMP®) certification from the Project Management Institute.

The PMP is the most important industry-recognized certification for project managers worldwide. PMPs lead projects in nearly every country and perform work in virtually every industry and with most every methodology. According to a study commissioned by PMI in 2015, organizations that use PMP-certified project managers complete more of their projects on time, on budget and meeting original goals.

“At InterDev we understand the importance of working with our clients to assure on-time and on-budget project delivery. By increasing the number of PMP-certified professionals on our staff, we will be able to enhance not only the efficiency of our deliverables but also the overall customer experience,” said InterDev CEO Gary Nichols.

### **About InterDev**

InterDev has been providing information technology (IT) support and security services to corporations, non-profit and educational organizations and public-sector entities for more than three decades. In addition to managing and hosting IT operations for its valued clients, InterDev also provides leading edge IT security solutions -- based on technologies from Palo Alto Networks, Extreme Networks and Dell SecureWorks -- as well as telecommunications consulting including VoIP phone systems, and voice and data circuits. InterDev is a proud Microsoft Gold Certified Partner and Barracuda Networks Certified Diamond Partner. InterDev serves customers from offices in Atlanta, and Chicago.
