

## InterDev Joins Palo Alto Networks NextWave Partner Program

**ALPHARETTA, GA – November 11, 2013** – InterDev, an Atlanta-area provider of information technology and security services, today announced it has been recognized by Palo Alto Networks with Gold Level membership in the NextWave Partner Program. NextWave recognizes technology VARs and managed service providers who market, sell, and deliver Palo Alto Networks enterprise network security solutions to their customers by providing them with support for investing in and delivering pre- and post-sales value-added services.

“InterDev is proud to have been invited to join this very selective program,” said InterDev CEO Gary Nichols. “As our security practice has grown, we have carefully evaluated solutions that meet the business requirements of organizations representing all stages of the market. We look forward to extending the value we provide to our customers through representation of these fine Palo Alto Networks solutions.”

Since 2003, InterDev has invested heavily in security personnel and training. Participation in the NextWave Partner Program is a key component of InterDev’s strategic approach to the estimated \$10B+ network security market.

### About InterDev

For more than 30 years, InterDev has provided professional Information Technology (IT) services and support for emerging organizations across the U.S. In addition to managing and hosting IT operations for its valued clients, InterDev also provides leading edge IT security solutions -- based on technologies from Palo Alto Networks, Enterasys and Dell SecureWorks -- as well as telecommunications consulting including VoIP phone systems, and voice and data circuits. InterDev is a proud Microsoft Gold Certified Partner and Barracuda Networks Certified Diamond Partner. InterDev serves customers from offices in Atlanta, Georgia and Jacksonville, Florida.
